# **GREENAUDITREPORT(2021-22)**

Of

## **SIRK.P.COLLEGE OF COMMERCE**

### **Executive Summary**

A nation's growth starts from its educational institutions, where the ecology is thought as a prime factor of development associated with environment. A clean and healthy environment aids effective learning and provides a conducive learning environment.

Indian educational institutes have become more sensitive to environmental factors and more concepts are being introduced to make them eco-friendly. On this background it becomes essential to adopt the system of the green campus for the institute which will lead for sustainable development. To preserve the environment within the campus, various viewpoints are applied, thereby addressing various environmental issues and promoting energy savings; recycle of waste, proper waste management, water reduction, water harvesting etc.

Environmental auditing is a process whereby an organization's environmental performance as well as environmental consciousnesses is evaluated against its environmental policies and objectives. Green audit is defined as an official examination of the effects a college has on the environment. As a part of such practice, internal environmental audit (Green Audit) is conducted to evaluate the actual scenario at the campus.

In continuous process with the green audit carried out in previous years for Sir K. P. Commerce College, some activities were suggested on Environmental Days so as to create awareness and percolate the sensitivity towards environment to create responsible society.

We are happy to submit this green audit report to the Sir K. P. Commerce College authorities as a part of continuous process. It was observed that the management, Principal, IQAC committee, Campus Development Committee have put best of their efforts towards the suggested activities.

**Dr. Mehali Jigesh Mehta**  
Green Audit Coordinator,  
Ph.D –Environmental Engg.  
Associate Professor,  
Civil Engineering Department,  
Sarvajanik College of Engineering and Technology,  
Surat

## Acknowledgement

Green Audit Assessment Team is thankful to the management especially chairman Shri Rajesh Desai and Dr. Martina R. Norhona, principal of Sir K. P. College of Commerce College, Surat for entrusting process of Green Audit with Civil Engineering Department, Sarvajanik College of Engineering and Technology. We appreciate the cooperation extended in providing the information and necessary data by the IQAC Team members during the entire process. We are thankful to the coordinator IQAC and other staff members who were actively involved for continuous assessment and implementation of the suggestions given in the previous reports.

Further, we hope this will boost the new generation to take care of Environment and propagate these views there by creating enlighten citizen and sustainable society.

**Dr. Jigar Sevalia**  
Professor and Head,  
Civil Engineering Department  
SCET, Surat

**Dr. Hiren Patel,**  
Principal,  
SCET, Surat

## 1. Various Initiatives taken by college:

**(a) Rainwater Harvesting:** Water harvesting system is installed in the campus and the collected water is used to water the plants in the campus.

**(b) Facilities for the management of degradable and non-degradable waste:** Entire campus is provided with Dry and wet dustbins and later on the waste is collected by Surat Municipal Corporation.

**Dry and Wet Dustbins**

**(c) Compost Pit:** The waste of trees and plants are disposed of in the compost pit.

**Incinerator in Girls' Common Room:** An incinerator is installed in the girls' room.

**Following Green Protocol:** We facilitate our invited guests with green plants /books.
